Education

Fatec Ipiranga – Pastor Enéas Tognini — São Paulo, Brazil
Associate Degree in Systems Analysis and Development — *Feb 2026 - Dec 2028*

Etec Getúlio Vargas — São Paulo, Brazil
High School Diploma with Technical Qualification in Administration — *Feb 2022 - Dec 2024*

Experience

TribeMD — São Paulo, Brazil
QA Development Intern — *Oct 2026 - Present*

- Perform manual and end-to-end testing of web applications, validating functional workflows and business rules.
- Work simultaneously with two products alongside different teams, coordinating tasks and priorities across projects.
- Verify data consistency across application workflows, ensuring that information is correctly displayed and processed.
- Track tasks in Jira, document reproduction steps and test evidence, and use Confluence for technical references and documentation.

Veridion Tecnologia — São Caetano do Sul, São Paulo, Brazil
Full-Stack Developer (Freelancer) — *Jun 2026 - Jul 2026*

- Developed a responsive web-based CRM application for managing documents, calculations, and business values.
- Built the frontend using React and Vite, focusing on responsive interfaces and application usability.
- Worked with Prisma ORM and MySQL, using Supabase infrastructure for database management.
- Developed and integrated REST APIs to connect frontend features with backend services.

Musashino Frozen Fresh Factory — Gunma, Japan
Production Assistant — *Apr 2025 - Aug 2025*

- Participated in food production processes, following established operational procedures.
- Weighed raw materials and recorded production data in spreadsheets and internal systems.
- Followed quality, hygiene, food safety, and 5S methodology standards.
- Collaborated with team members to meet daily production targets.

Leadership Activities

Capstone Project in Systems Analysis and Development — São Paulo, Brazil
Team Leader and Author — *Feb 2026 - Jun 2026*

- Coordinated an academic team in developing a Java-based inventory management solution, organizing activities and defining responsibilities among team members.
- Led the preparation of project documentation according to ABNT standards, ensuring standardization and quality in the technical presentation.
- Structured UML diagrams, including use case diagrams and information system modeling, for application planning.
- Supported the team in debugging, technical problem-solving, and integrating features developed throughout the project.

Undergraduate Thesis in Logistics São Paulo, Brazil
Researcher and Author *Feb 2024 - Dec 2024*

- Developed a group undergraduate thesis focused on the logistical challenges faced by startups across different operating models.
- Conducted research on operational efficiency, logistics services provided by startups, compliance, transportation, and distribution, analyzing their impact on business processes.
- Structured the documentation according to ABNT standards, organizing methodology, theoretical framework, and bibliographic references.
- Described strategies used for logistics optimization and operational process improvement in emerging companies.

Skills

- **Technologies:** React, Next.js, NestJS, TypeScript, JavaScript, Java, Python, SQL, MySQL, Prisma ORM.
- **Tools:** Jira, Confluence, Git, GitHub, Docker, Postman, DBeaver, Cypress, Robot Framework, Excel, Claude, Claude Cowork.
- **Knowledge:** REST APIs, Quality Assurance, Manual Testing, End-to-End Testing, BDD, Agile Methodologies, Data Manipulation, Version Control.
- **Competencies:** Teamwork, organization, problem-solving, 5S methodology, and administrative process fundamentals.
- **Languages:** Portuguese (Native), English (Upper-Intermediate – B2), Japanese (Basic – A1).

Volunteer Work

Shigaken Japanese Community São Paulo, Brazil
Volunteer *2022 – Present*

- Supported the organization of cultural events (e.g., Japan Festival).
- Worked in cash register, counter, kitchen, and logistical support operations.
- Collaborated with the team to ensure public service and the smooth running of events.

Hongwanji Scout Group São Paulo, Brazil
Scout Leader *2017 – 2024*

- Participated in camps and competitive activities, strengthening leadership, teamwork, and problem-solving skills.
- Earned several scouting specialty badges in technical and cultural areas.
- Served in leadership roles (Patrol Leader), organization, and operational support, coordinating teams, assigning tasks, mentoring members, and collaborating in the execution of activities and camps.

Certifications and Courses

- 2026 – Itaú Hackathon – 20 hours
- 2026 – Java with AI – DIO – 45 hours
- 2026 – QA Career: Processes and Test Automation (6-course track) – Alura – 46 hours
  Courses: Quality Assurance: test planning and bug management; Cypress: E2E test automation; Robot Framework: BDD test automation; Programming Logic with JavaScript; Git and GitHub: sharing and collaborating on projects; Agile Teams.
- 2026 – Git and GitHub: Mastering Code Version Control – Alura – 8 hours
- 2026 – IBM Bob Bootcamp: Enterprise-Grade AI for Developers and Tech Leaders – DIO – 15 hours
- 2026 – Cybersecurity Fundamentals (IBM content) – Santander Open Academy – 1.5 hours
- 2026 – Excel – Santander Open Academy – 8 hours
- 2026 – Web Architecture with AI Immersion – Alura – 4 hours
- 2026 – Front-End with AI Immersion – Alura – 2 hours
- 2026 – Data with Python II Immersion – Alura – 4 hours
- 2025 – Basic English for Information Technology – IEPRO (UECE) – 40 hours
- 2025 – Information Technology Security – Fundação Bradesco – 12 hours
- 2025 – Basic English 2 for Information Technology – IEPRO (UECE) – 100 hours
